Top Skills

Software Engineering Practices
Japanese
Healthcare Information Technology (HIT)

Certifications

Software Engineering Focus Area
Japanese Language Proficiency (Intermediate)
Top Students for Digital Ethics and Data Privacy
Honour List of Student Tutors
Orbital - Apollo 11 (Advanced)

Timothy Putra Prasetio

SWE @ Rakuten Asia | NUS CS
Singapore, Singapore

Summary

I am someone who’s passionate in building solutions for real world problems!Love getting my hands dirty through hands-on experience, prototyping solutions and improving them through feedback. Excited to collaborate with like-minded individuals and organizations to create a brighter, more inclusive future through technology!

Experience

Rakuten Asia Pte Ltd
1 year 5 months

Software Engineer
July 2026 - Present (3 months)
Singapore

Software Engineer Intern
May 2025 - July 2026 (1 year 3 months)
Singapore

CareSense.ai
Software Engineer Intern
October 2024 - May 2025 (8 months)
Singapore

Developing a mobile application with Expo to improve healthcare through the help of an intelligent automated health coach.

National University of Singapore
Teaching Assistant
August 2023 - May 2025 (1 year 10 months)
Singapore

Courses Taught:

AY22/23 Sem 2 - GEA1000N (Reasoning with Data)

AY23/24 Sem 1 - CS1101S (Programming Methodology I)

AY23/24 Sem 2 - CS2030S (Programming Methodology II)

AY24/25 Sem 1 - CS1101S (Programming Methodology I)

AY24/25 Sem 1 - CS2103T (Software Engineering)
AY24/25 Sem 2 - CS2103T (Software Engineering)

HomePal
Full Stack Developer Intern
August 2023 - February 2025 (1 year 7 months)
Singapore

• Built a mobile application using Flutter and Firebase to notify users of AI-detected falls, improving real-time alert efficiency for elderly care.
• Designed and developed a GUI using Tkinter for Raspberry Pi, streamlining data interaction for machine learning model training, resulting in a 300% increase in processing speed.
• Extended accessibility of Raspberry Pi's GUI by implementing a cross-platform web-based application using Python Dash, enhancing usability for diverse platforms.
• Collaborated with cross-functional teams to integrate AI algorithms into applications, enhancing the reliability and accuracy of fall detection systems.
• Technologies: Flutter, Firebase, Tkinter, Dash

Education

National University of Singapore
Bachelor of Computing in Computer Science, Computer Science · (August 2022 - May 2026)

NUS College
Bachelor's degree · (August 2022 - August 2026)

Anglo-Chinese School (Independent)
International Baccaulareate · (February 2020 - November 2021)

Anglo-Chinese School (Independent)
Integrated Programme · (2018 - 2019)

SMP Kristen Petra 1
· (2014 - 2016)
